WILL BE EXEMPTED FROM CONFERENCE FEES TO ATTEND A 5-DAY TRAINING CONFERENCE IN NEW YORK: GLOBAL OUTREACH & LEADERSHIP DEVELOPMENT (GOLD)

The United Nations Foundation entrusted in 2015 the Lebanese American University (LAU) with the responsibility of organizing both the Global Classrooms International High School Model UN Conference and the Global Classrooms International Middle School Model UN Conference, taking place in New York City.
Global Classrooms International (GCI)

Global Classrooms International Model UN is the flagship education program of the Lebanese American University. Operated by the United Nations Association of the United States of America (UNA-USA), for the past 15 years, 2016 ushered in a new era as LAU, a partner of UNA-USA, operating a model UN program of its own in Beirut since 2005, took over the prestigious GCI in New York. Two international conferences in New York City are held, one conference for middle school students and a separate conference for high school students. These conferences engaged more than 4,000 student leaders coming from around the world, including Ivy League universities, and more than 48,000 high school and middle school students coming from 250 schools in 28 countries. The purpose of the program is to bring the UN culture of global awareness and to bridge the education gap through allowing students to step into the shoes of ambassadors in order to negotiate with fellow delegates current world issues, to resolve conflicts, and to navigate the UN’s rules of procedure.

The Global Classrooms International Model United Nations registration is divided into two phases:

- The first phase is the School Registration
- The second phase is the Student Registration

In the School Registration Phase, all participating schools are required to place their information and to indicate the approximate number of students they wish to bring to the conference.

Please note that the form will request the information of the schools' advisors. The indicated school advisors would be contacted for the updates and information pertaining to the conference.

In the School Registration Form, schools will be given the opportunity to indicate their 'Country Preference'. The country Preference section is divided into two sections:

1st Section entails indicating ‘Regional Preference’ which is categorized into 5 groups:

- Region 1: East Asia, South Asia, Pacific
- Region 2: Europe and Central Asia
- Region 3: Latin America and the Caribbean
- Region 4: Sub-Saharan Africa, the Middle East and North Africa
- Region 5: The Developed World (including G-8 Countries)

In this Section, schools have the opportunity to rank the preference of every Region from 1 to 5 (with 1 being the highest priority). Note: if one Region is ranked number 1 which is the highest priority then no other Region should be allocated number 1 as well. See the below Sample 1.1 of how the Region Preference should look like.

The 2nd Section in the ‘Country Preference’ is choosing the First & Second Country Preference within each Region. Schools have the opportunity to indicate two country priorities from each region. See below Sample 1.2 of how the Country Priority Preference is within each Region.

Once the School Registration Form is submitted, school advisors are requested to proceed on to the ‘Online Payment’ link in order to secure and to confirm their school’s participation through paying the ‘School Registration’ fees.
Regional Preferences

You can only choose One Region to be your highest priority. Example: School X wants the Developed World Region to have the highest priority, it will give it Priority Rank of 1 and if it wants the Europe and Central Asia Region to have the second priority then it will give it Priority Rank of 2.

Region 1: East Asia, South Asia, Pacific *
(1 being the highest priority)

Region 2: Europe and Central Asia *

STUDENT REGISTRATION

The Global Classrooms International Model United Nations registration is divided into two phases:

- The first phase is the School Registration
- The second phase is the Student Registration

In the Student Registration Phase, all participating schools are required to place register every student in his/her respective committee and to indicate the country the delegate would be representing.

Please note that schools will be notified:
- Country Selection Results
- School ID
- Committee-Country Matrix

The notification will be in 10 days after the ‘School Registration’ phase closes on condition that the school has secured its ‘School Registration’ Fees.

Accordingly, the student assignment link is to be filled out for every student. This registration phase is very important as it facilitates various logistical and administrative matters for the conference attendance, certificate, and conference name tags.

The committee-country matrix illustrates the representation of each country per committee. Please note that the number ‘2’ indicates the capacity of representation per country. Accordingly, the school representing Afghanistan can assign 2 delegates (co-delegation) in the CND committee. See below Sample 2.1 for illustration.

Country: Poland
Committee: United Nations Human Rights Council (UNHCR)
Topic: The Rights of Prisoners
Delegate: Delegate Name (Delegate ID)

“The rights of every man are diminished when the rights of one man are threatened,” a bright man once said. The topic of prisoners’ rights and what privileges a prisoner should have been is often a conflict-ridden matter and while it is not granted a great deal of public attention, there are important interrogations still to be considered. From the very beginning, Poland has backed and respected prisoners’ rights. In fact, the Polish government was, along with multiple other countries, one of the first to ratify the treaty of the Fourth Geneva Convention (1949), which broadly defined the basic rights of prisoners.

The Human Rights law acknowledges, “convicted persons go to prisons as punishment and not for punishment”, which therefore abolishes any act of torture or inhuman treatment towards them. The government of Poland fully agrees with that statement. As a matter of fact, Poland’s prisons are founded on the truthful assumption that no individual can expect lawful behavior in the future from the inmate, if during his seclusion, his rights as a being with human dignity have not been respected. However, the living environments of the inmates remain less than suitable. To confront this issue, Poland has been working, within the past ten years, to make the issues stemming from prison overpopulation top priority by expanding the capacity of prisons, building new ones or repairing existing ones. Moreover, The Penal Code of 1997, which makes up the criminal justice system of the country, majorly lowered the maximum as well as the minimum imprisonment period, and reduced the minimum punishment, which also enhanced penitentiary overcrowding.

On a wider scale, Poland has proven its desire to give positive assistance by attending the Standard Minimum Rules for the Treatment of Prisoners conference, adopted on August 30th 1955 by the United Nations Congress on the Prevention of Crime and the Treatment of Offenders, which took place in Geneva, and was permitted by the Economic and Social Council in resolutions of 31 July 1957 and 13 May 1977. In addition, the Polish government willingly sent a representative to an experts meeting organized by the OHCHR in Geneva in 1998 where a draft version of Human Rights and Prisons was reviewed. Nonetheless, a recent UNODC report reviewed the nine million people imprisoned around the world, revealing how vulnerable these individuals are to abuse.

This is no longer a political issue. This is a moral issue. It touches the existence of human principles and development. It is not a question of Right versus Left; it is a question of Right versus Wrong, yet Poland intensely believes that it is Wrong to treat any human being as an object, a ward or a slave. Therefore, the republic of Poland strongly suggests tackling this issue to its core by continuing the UN’s efforts to raise awareness on human rights, and by keeping a watch on correctional establishments’ respect towards the human dignity of prisoners. As far as violence is concerned, to abolish overcrowding, which is one of the prime causes, Poland believes that reducing imprisonment period is the most effective solution given its success in the country as well as its minimal monetary requirements.

DRESS CODE

All delegates at the Global Classrooms International Model UN Conference must adhere to the following dress code. As a general rule, delegates must be dressed in Western business attire. Delegates who are not dressed appropriately will not be allowed to attend the conference.

SUITs
A suit always looks professional and is the best option. Be sure to keep suits clean and wrinkle-free.

SHIRTS & TOPS
Males must wear a collared button-down shirt that should be tucked in at all times. Females may wear a blouse, sweater or button-down shirt. Dresses are also appropriate as long as they are adequate in length. No T-Shirts or sweatshirts.

PANTS & BOTTOMS
Slacks and suit pants are acceptable, preferably in dark colors. Females may wear skirts, but these should not be more than two inches above the knee. No jeans or shorts.

SHOES
Females may wear high-heels of reasonable height but they may prove uncomfortable after some time. Males should wear dress shoes. Comfortable shoes are a must, as the conference venue is very large and may require significant amount of walking to get through. No sneakers, sandals or flip-flops.

HAIR
Keep hair looking professional at all times; hairstyle should not detract from your overall appearance. Delegates should refrain from dying their hair non-natural colors (i.e. pink, blue, etc.) in the weeks leading up to the conference.

JEWELERY & PIERCINGS
If you have piercings in your face that are not for cultural purposes and not on your ears, remove the rings or studs during the conference, for a professional presentation.

ATTIRE
To ensure that your students understand the proper attire for the conference, have a dress rehearsal about two weeks prior to the conference. Have students wear or bring in their conference attire and ask students to discuss whether the attire is acceptable, and, if not, what could be improved.
